CAREER OBJECTIVE

I am a web developer who specializes in HTML, CSS, JavaScript, Bootstrap, and Vue.js for building responsive and interactive front-end applications. Besides that, I build robust back-end solutions using Flask and also manage databases with SQLite3 and PostgreSQL, ensuring smooth web experiences.

EDUCATION

Bachelor of Science (B.Sc), Data Science And Programming   2022 - 2027
Indian Institute Of Technology Madras
CGPA: 7.52/10

B.Tech, Artificial Intelligence And Data Science   2022 - 2026
Guru Nanak Institute Of Technology (GNIT)
CGPA: 7.91/10

PROJECTS

House Care
Sep 2024 - Nov 2024

This project is a web application built with Vue.js (frontend) and Flask (backend) for customers and technicians to interact with services. Customers can browse, request, and track services, while technicians can accept, reject, and complete requests. The backend uses PostgreSQL for data management, and email notifications are sent at key stages. The frontend is responsive, with Bootstrap for styling and Chart.js for displaying statistics. Vuex manages state, and Axios handles API calls.

E-Library
Jan 2024 - Apr 2024

A multi user digital library platform built using web development tools like Flask (python framework), SQLite, Bootstrap CSS, JavaScript. It enables users to get books issued and read them online. The librarian has access to see the statistics of the books and sections, revoke issued books, and approve or deny issue request.

Campus Connect
Mar 2024 - Jun 2024

A school database management system website built using web development tools like Flask (python framework), PostgreSQL, Bootstrap CSS, JavaScript. This system streamlines all administrative tasks into a single platform digitalizing most of the paper work in the administrative department.

SKILLS

- HTML
- JavaScript
- SQLite
- CSS
- Python
- PostgreSQL
- Bootstrap
- Vue Js

EXTRA CURRICULAR ACTIVITIES

- Technical Lead for the Data Pioneers Club in the Guru Nanak Institute of Technology.
- Conducted Technical events in the Guru Nanak Institute of Technology fest as the technical coordinator.
